ScoreCode Tickets

Similar to how people use mobile or printed tickets to attend concerts or sports events, ScoreCodes are mobile tickets & coupons sold online and redeemed offline for products & services at local businesses.

ScoreCodes are unique codes that can sell anything, anywhere, anytime. Using the mobile web each ScoreCode connects to an individual landing page which can also be ecommerce enabled. Ideal for advertising and promotions on mobile at websites, in emails, or linked to social media. ScoreCodes also work in print, brochures, outdoor and any media you can access by using a smartphone and QR reader.
